

As a Maryland small business owner -orthodontist-with 14 employees and currently zero patients due to the mandates of the Governor of Maryland and who has received ZERO dollars so far in Loans or Grants from the SBA EIDL, UE, PPP , Maryland Dept of Commerce , MD Dept of Labor (hah) nor the yet to be unveiled -Erich cant even provide an exact time-PHEG-I am COMPLETELY against a tax increase at this time-lets think about a tax decrease right now-find a way. All of my applications are being "reviewed"-some up to 3 weeks now.....

Don't even get me started on the probable purposes of the request by the Montgomery County BOE for a funding increase: forced rezoning of schools to achieve an objective of equalizing FARM rates among schools-ie moving kids out of their neighborhood schools to achieve a completely unsubstantiated political objective . Emotionally driven/fact deprived. Give it up already.
